tata takes social media to a whole new level. It rewards users for engagements and community building. The user interface is fluid, image and video uploads are done almost instantly. Though I have an issue connecting it with TTC connect and I hope the support team will get back to me as soon as poss...

Great app, I have tried a lot of applications but this is different. The interface is quite similar to Instagram and I just loved the rewarding system it based on blockchain. The reputation algorithm is great additionally if u got higher reputation you also get some kind of moderator role. I mean th...

Fabulous social media app, super fast, great interface and simple to use. I found tata pretty interesting and cool app where I can find quality posts and great people to interact with. The best thing is that you can earn ACN tokens for engaging with community. I highly recommend this app to try it a...

Awesome, awesome. Tata redefines the word 'social' in social media. Tata was quite easy for me to start with, compared with other social media that has steep learning curve. I find myself going back every few hours. It's so interesting to have a platform that rewards you for such little effort of wh...
